

Orosur Mining Inc. – Termination of Anillo Option Agreement

MONTEVIDEO, Uruguay, May 25, 2018. Orosur Mining Inc. (“Orosur” or “the Company”) (TSX/AIM: OMI), a South American-focused gold producer, developer and explorer announces its decision to terminate the option agreement on its Anillo gold exploration project with Nacional del Cobre de Chile (“Codelco”), Chile’s national mining company, located close to Antofagasta, in Region II, Chile and focus its resources on its core properties in Colombia and Uruguay.

The Anillo project was originally optioned from Codelco in 2010, giving Orosur the right to acquire a 65% interest in the project by spending US\$4,000,000 over 4 years and completing a bankable feasibility study.

On June 6, 2015, the Company closed a further option agreement with Asset Chile Exploración Minera Fondo de Inversión Privado (“AC”), whereby AC subscribed for an initial amount of Anillo SPA common shares equal to 16% of the capital of Anillo SPA for gross proceeds of US\$850,000. AC had a further option to elect to earn up to 32.5% and up to 40%, by funding an additional US\$1,250,000 and an additional US\$1,375,000 respectively, which did not materialise.

Rather, following completion of the first phase of capital, Orosur and AC agreed to extend AC’s timing to enter into phase 2 until December 2017 in exchange for AC paying care and maintenance costs of Anillo as well as the Chilean office costs and also allowing Orosur to enter into discussions with other parties to potentially fund the project.

In view of the lack of positive exploration results during phase 1, AC gave notice of their intention not to enter into phase 2, following which and given the lack of alternative partners and the early stage and high-risk nature of this project, the Company has decided not to proceed with the option agreement. The termination of the option agreement is concluded by notifying Codelco and the notice was given to Codelco on May 24, 2018. There are no penalties involved with the termination of the Anillo option agreement. Orosur has an asset value of approximately US\$5.5 million recognized in its statements for the Anillo project which will be written down in the next financial results.
